Leanne Wyvill is an experienced corporate communications professional who helps people in business communicate their ideas with confidence. She has worked for iconic Queensland health and education services, in the public and private sectors, as well as with numerous start-ups, small businesses and not-for-profits.

She now runs Presence Communications – a training and services consultancy which helps teams work better together with tailored business communication training and insightful True Colors empathy-building workshops.

Leanne is known for imparting practical knowledge to help people build confidence in their own ability to communicate and present their ideas effectively. Words that are often used to describe how her include passionate, enthusiastic, caring, professional, authentic, and collaborative.

Topics

- **Tuning in to your team** – how understanding each other's strengths and stressors can boost team cohesion and performance
- **Communication and team capability** – the difference that communication choices and skill can make to productivity and project management, in person, on paper and online.
- **Tone** – how it impacts on communication effectiveness and how to get it right in writing
- **Pitching power** – practical tips for presenting ideas with confidence
- **Innovation and communication** – why some teams and businesses excel while others expire
